

Great Falls Public Schools Good Apple Award Recipients

Jo Anne Rohrback, Social Studies Teacher and Coach, North Middle School, was recommended for a Good Apple award by Maureen Scott, Family and Consumer Science Teacher, North Middle School, because of the following: Jo Anne Rohrback has taught and coached for 33 years and counting. While teaching is her profession, coaching is a definite passion. What stands out as exemplary is the fact that she holds academics in high regard and holds all of her players to the same high standards. She consistently checks on their grades and visits with their teachers. If they have fallen behind, she gets them back into the classroom before starting time on the court happens. Yes, she admits, it is time consuming but that's what makes her stand out from all the rest and a Good Apple nominee.
