

## Great Falls Public Schools Good Apple Award Recipients

**Darren Brown, 1<sup>st</sup> Engineer, Meadowlark Elementary School**, was recommended for a Good Apple award by Ruth Uecker, Assistant Superintendent K-6, District Office Building, because of the following: Under his direction, Darren planned and directed an elementary track meet on May 22, 2018. Several years ago the elementary track program was cut due to the failure of a district levy. Darren single handedly reinstated the elementary track program as he created an all comers track meet. This meet is strictly ran on a volunteer basis under Darren's direction. Darren is a true team player willing to do whatever it takes on the behalf of Great Falls Public Schools and the students of our district. Due to challenging budget times, Darren rose to the occasion and found a way to keep a program that is good for kids. This shows his true dedication to education and for that he should be honored with a Good Apple Award.
