

## Great Falls Public Schools Good Apple Award Recipients

**Richard Lawson, Carpenter, Ryan Stoll, Plumber, and Daniel Clark, Plumber, all Little Russell** were recommended for a Good Apple awards by Lance Boyd, Principal, Sunnyside Elementary School, because of the following: I would like to recognize these three employees for their hard work and diligence as they worked on this project over the summer of 2018. These three professionals were very accommodating as they worked around the summer Hands program that we had in our building as well as the Center for Mental Health summer program. Rich, Ryan and Daniel were always willing to accommodate the groups and worked as hard as possible to get this project completed. The work and craftsmanship that was put into these remodels were top notch. It is people like these three gentlemen that make Great Falls Public Schools a great place to work. On behalf of the staff at Sunnyside Elementary School, I would like to thank Rich, Ryan and Daniel for their hard work and professionalism during this project.
