

Do I have the option to choose what school my child attends if there is room?

All students shall attend the school in their designated attendance areas according to the residential address of their parent(s) or legal guardian as of the first day of school. If you would rather your child attend a different school, a permissive transfer form must originate from the transferring school (area where student's parents or legal guardian reside). Forms are available at each school building. Permissive transfers will only be considered if classroom space is available at the requested school and is often granted, but not guaranteed. It is up to the parent to check with the school to see if space is available. Additionally, transportation to a school that is not assigned will not be provided. See **Board policy 3110** for more information.
