

# HANDS Summer Program 2020

## “HANDS Across Time:

We would love to have your children join us for a summer traveling through time. We will be transporting the children through history from the Dinosaur Age, Dark Ages, the Renaissance, all the way up to modern day. We have fun activities, arts and crafts, guest speakers, opportunities to experience foods of the times, and learn amazing things about the world we live in. From the past to the present, it's going to be a great trip! Field trips, recreation, awesome guest speakers, and special events are all part of the HANDS summer experience.
